## *June birthstones: Alexandrite, Pearl, Moonstone*

COURTESY: D. HUBPARY (RIGHT)

**Alexandrite** is the rare variety of the mineral chrysoberyl that changes color in different lighting. Most prized are those alexandrite birthstones that show a vivid green to bluish green in daylight or fluorescent light, and an intense red to purplish red in incandescent light. Major alexandrite deposits were first discovered in 1830 in Russia's Ural Mountains. The gem was named after the young Alexander II (1818–1881), heir apparent to the throne. Alexandrite caught the country's attention because its red and green colors mirrored the national military colors of imperial Russia.

**Pearl**, the enchanting June birthstone originates from oceans, lakes and rivers around the world. It is a timeless wardrobe staple, beloved by women of all ages. The origin of pearls fascinated our forebears. Ancients from the Middle East believed that pearls were teardrops fallen from heaven. The Chinese fancied that the June birthstone came from the brain of a dragon. Christopher Columbus and his contemporaries thought that mollusks formed pearls from dew drops.

**Moonstone** is the best-known gem of the feldspar group of minerals. It is renowned for its adularescence, the light that appears to billow across a gemstone, giving it a special glow. The finest moonstones show a blue sheen against a colorless background. This June birthstone has been associated with both the Roman and Greek lunar deities. Hindu mythology claims that it is made of solidified moonbeams. Moonstone is often associated with love, passion and fertility; it is believed to bring great luck.

## **Waco 66<sup>th</sup> Annual Gem and Mineral Show, May 2, 3<sup>rd</sup>, 2026!**

“ . . . we had almost 850 tickets/attendees at the show. I talked to several vendors, and they were all very pleased with the show. Two specially said it was their best show ever.” Scott Halvorson

## Notes

The editor requests news items from any member to be included in the Gritty Greetings. Deadline for submissions is the 20<sup>th</sup> day of the month. Contributions to the newsletter are encouraged. **Name**

### **Tags:**

It is great that we feed the pig at our meetings because we don't have or have lost or forgotten our nametags to drop a dollar in the pig. The money from the pig goes toward our Scholarship program, and we really do appreciate every dollar or more. However, if you need a name tag you can purchase them at the businesses below!

Waco Gem & Mineral Club nametags are available at **Print Mart**, 202 Deb (behind AutoNation Chevrolet). Cost with a pin back is \$8.00 (with tax \$8.66), and with a magnet back is \$11.00 (\$11.91). or at Award Specialties at 431 Lake Air Dr.

### **Club Dues:**

**Annual Waco Gem and Mineral Club dues are \$12.00 for an individual membership or \$20.00 for a family membership. Please check with John Hillman if you aren't sure whether you've paid your Dues!**

### **Shop Fees:**

Lapidary Workshop fee is \$2.00 per hour. Slab Saw fee is an additional \$2.00 per hour. Class fees are always dependent upon class and instructor.

The Waco Gem and Mineral Club is a member of the South-Central Federation of Mineral Societies and the American Federation of Mineralogical Societies. Meetings are held on the first Saturday of each month (except July and September) at 10:00 a.m. at the Waco Gem and Mineral Club Clubhouse, 187 South McLennan Drive in Elm Mott, Texas. The lapidary workshop is in the clubhouse.

Our website is [www.wacogemandmineral.org](http://www.wacogemandmineral.org)

Facebook: <https://www.facebook.com/WacoGemAndMineralClub>

### **Club Purpose**

- to bring about a close association of those persons interested in earth science and lapidary arts
- to increase and disseminate knowledge about rocks, minerals, fossils, Indian artifacts and other geological materials
- to encourage lapidary art and the collection and exhibition of rocks, minerals, fossils and artifacts
- to conduct field trips, meetings, lectures, displays and an annual show for the edification of the public
- to cooperate with educational and scientific institutions and other groups in increasing knowledge and popular interest.
